

Item	Industrial Gigabit Ethernet Switch
Series No.	IES3104
Description	4 x 10/100/1000Base-T to 1000Base-X
	

### Overview

The IES3104 series is a high performance and cost-effective Industrial Gigabit Ethernet Switch that meets the high reliability requirements of industrial network operations. It is designed to extend the distance of a network by converting Gigabit Ethernet data between twisted pair cabling and multi-mode or single-mode fiber-optic cabling.

The IES3104 features 1x 1000Base-X fiber port and 4 x 10/100/1000Base-T twisted-pair port. The fiber optic port features SC connector and operating distance from 550 to 120km depending on different Model. The twisted-pair port has an RJ-45 connector with a maximum operating distance of 100m. IES3104-F provides one SFP slot for any MSA-complaint pluggable 1.25G SFP transceivers.

The IES3104 Industrial Gigabit Ethernet Switch is designed to stand up to extreme temperature, surges, vibrations, and shocks found in industrial automation, government, military, oil & gas, mining and outdoor applications, such as traffic management, oil and gas pipelines.

The IES3104 series enables real-time deterministic network operation, requires no configuration and will instantly operate as soon as you power it up. Additionally, they can be installed by DIN-rail or wall-mounted, allowing users to deploy any mix of network conversions required.

Many Backbone switch products now support the industry-standard IEEE802.1Q specification for VLANs that send extra-long data packets on the network. The IES3104 series converters are fully compatible with these long packets, enabling them to be used in modern networks.

## Features

- 4 x 10/100/1000Base-T Port to 1 x 1000Base-X
- 1\*9 fixed fiber module or SFP slot optional
- RJ45 support auto MDI/MDI-X function
- Auto-negotiation speed, half/full-duplex
- Store-and-forward
- Max packet size: 2048bytes
- Support wide operating temperature (-40 °C ~ +85 °C)
- Wide-range redundant power design (12~56VDC)
- Power polarity reverse protect
- Overload current resettable fuse present
- IP-40 protection
- Provide EFT protection for Power line
- Support Ethernet ESD protection
- DIN-Rail and Wall-Mounted Installation
- Low power consumption
